

Status of Resource Efficiency and Cleaner Production(RECP) promotion in the Republic of Moldova

National Cleaner Production Programme (NCPP)

Lucia Sop

Programme Director

www.ncpp.md

NCPP-Moldova

■ Objective

- Improve resource productivity and environmental performance of businesses and other organizations in Moldova
 - and thereby contribute to sustainable industrial development and generation of employment and incomes

■ Overarching Outcome

- RECP concepts, methods, practices, technologies and policies implemented by enterprises, government authorities and other stakeholders in Moldova

■ Contributing Outcomes

- RECP Capacity: for delivery of value-adding RECP services
- RECP Implementation: adaptation and adoption of RECP at enterprise level, including support for implementation
- RECP Policy and Strategy: mainstreaming RECP incentives

Phase I - Finalized in December 2010

Institutional and organisational set up for NCPP put in place

- Set up national governance structure with a National Executive Board
- Project support unit established at the host institution
- National experts trained

RECP assessments

- Preliminary CP assessments by national trainee experts completed in five companies:
 - Chateau Vartely (winery); Prometeu (nut and fruit processor); Carmez (meat processing); Lactis (dairy) and Fabrica Elemente de Constructii (concrete producer).
- Opportunities identified through systematic RECP assessment and started implementation with documentation of the resulting productivity, environmental and other benefits

Promotional materials/awareness/dissemination

- National and two regional seminars to raise awareness and seek stakeholder inputs in regard to future programme directions, webpage

Transitional Activities (2011) and Phase II re-launching

- Project document
 - Further developed in consultation with future donor and UNIDO-UNEP Programme following national inputs obtained in Nov/Dec 2010
 - Approved by Government of Moldova and UNIDO
 - Approved for funding by Government of Austria
- Ongoing liaison with demonstration companies
 - Continued monitoring of benefits and supported implementation of recommended options
- Re-start since October 2011
 - Recruitment of key national staff
 - Participation in global RECPnet meeting
 - Work planning and identification of trainee experts and demonstration companies

Expectations for the next 3 years

- RECP uptake in some 100 enterprises
 - RECP assessments: ~ 30 enterprises
 - RECP replication programme: ~ 60 enterprises
 - RECP technology support: ~ 15-20 enterprises
 - ➔ *Results and experiences widely disseminated*
- Human and institutional capacity
 - National experts in RECP implementation: ~ 15
 - Nationally owned centre of expertise with appropriate institutional legitimacy
 - ➔ *Being used by enterprises, government and other stakeholders*
- Policy and Strategy
 - RECP promoted through key government initiatives

Immediate Actions

- Preparation for start-up training
 - 9-11 Jan 2012
 - Recruitment of national experts and demonstration enterprises
- Finalization of host institution agreement - Technical University
